Dome Fitteds Hit the Scene

Looking for unique, urban chic items you won't find anywhere else? Check out Dome at Revive in Birmingham.

20 year old entrepreneur Jeremy Bruyninga is bringing custom designed, fitted New Era hats to the Detroit community.

With his unique designs, colors, materials and themes Dome gives a new spin on classic logos. Whether you're looking for something that's retro cool or prefer something a little more funky you can find it in Jeremy's Dome fitted lines.

Jeremy started his New Era designs because he saw a need for unusual urban street wear in Metro Detroit. Working out of Revive he saw the success of the unique shoe market and wanted to add a new element.

He took his creativity and observed various colors and cultural symbols to create his first line.

Expected to be on the shelves of Revive this month, Dome will add a new dimension to street wear in the D.

Check them out and visit After 5 Detroit in the upcoming weeks to get a first hand look at Dome. Or visit them online by clicking [here](#) or [here](#).Â
